Hi, my name is marc baker I live at 504 N. Floral Ave. and I just had a neighbor come to my door last night and informed me that we had until today to voice our opinion about the project that's going on in the vacant field behind my house. She gave me a lot of info that I wasn't aware of. I haven't been following it too closely. I didn't receive the letter so I had no idea. Today was the cut off day, but she has pointed out that they were offered property near the retirement center off of third to build Their housing project, which seems like a much better fit than in the middle of a bunch of residential houses where there would be a three story building outside my bedroom window, where there are no other three-story buildings in the city of Cle Elum kind of weird. They would put it out in a beautiful area with view of the mountain and stick a three-story building so every house around has their view hindered or blocked. I totally understand. There is a need for low income housing and there is a place for it. also just seems like the access is very limited compared to third avenue next to the retired living center and it's at the end of the dead end road which will mean lots of traffic going in and out past house is constantly Seems kind of a poorly thought out area to put it.

I would just like it to be put on the record that I am opposed to this having just bought my house two years ago with the promise of the seal being vacant now going to have three story buildings in it and a bunch of traffic which I did not Want. I am very opposed to this, and I would like it on the record that I would not like it to happen. I am opposed to this, etc.. let me know if there's anything I need to do on my end to further this conversation and try to come up with a better solution
