RE: SEPA 202504773; SEP-2025-002

Dear Virgil Amick:

Thank you for the opportunity to comment during the Optional Determination of Nonsignificance process for the Teanaway Court proposal. We have reviewed the documents and have the following comments.

Water Quality Program

Project with Potential to Discharge Off-Site

If your project anticipates disturbing ground with the potential for stormwater discharge off-site, the NPDES Construction Stormwater General Permit is recommended. This permit requires that the SEPA checklist fully disclose anticipated activities including building, road construction and utility placements. Obtaining a permit may take 38-60 days.

The permit requires that a Stormwater Pollution Prevention Plan (Erosion Sediment Control Plan) shall be prepared and implemented for all permitted construction sites. These control measures must be able to prevent soil from being carried into surface water and storm drains by stormwater runoff. Permit coverage and erosion control measures must be in place prior to any clearing, grading, or construction.

In the event that an unpermitted Stormwater discharge does occur off-site, it is a violation of Chapter 90.48 RCW, Water Pollution Control and is subject to enforcement action.

More information on the stormwater program may be found on [Ecology's stormwater website](#). Please submit an application or contact **Wendy Neet** at the Dept. of Ecology, (509) 571-6733, or Wendy.Neet@ecy.wa.gov with questions about this permit.

Ecology's comments are based upon information provided by the lead agency. As such, they may not constitute an exhaustive list of the various authorizations that must be obtained or legal requirements that must be fulfilled in order to carry out the proposed action.

If you have any questions or would like to respond to these comments, please contact the appropriate reviewing staff listed above.

Sincerely,

A handwritten signature in blue ink that reads "Amber Johnson".
