Hi Virgil,
We have completed a review of the Notice of Application SUB-2026-001.

Please be advised that the proposed project lies within the traditional territory of the šnp'əšqwáw səxw (people in between) or Wenatchi, one of the twelve tribes which make up the Confederated Tribes of the Colville Reservation (CTCR), which is governed by the Colville Business Council (CBC). The CBC has delegated to the Tribal Historic Preservation Officer (THPO) the responsibility of representing the CTCR with regard to cultural resources management issues throughout the traditional territories of all of the constituent tribes under Resolution 1996-29. This area includes parts of eastern Washington, northeastern Oregon, the Palus territory in Idaho, and south-central British Columbia.

Based on our review of the proposed project, which involves a short plat in advance of phase 4 of the Bullfrog Flats development, the CTCR requests that a cultural resource survey be conducted within the 964104 tax parcel and any of the adjacent parcels being platted and which are slated for future development. This is the ideal period to conduct the cultural resource survey to expedite future developments in this location. Per Washington's DAHP predictive modeling, survey is recommended or highly advised depending on the exact location within the listed tax parcel. This area has also not been subjected to survey previously and there are known historic and precontact resources within the surrounding areas.

Thank you for submitting this project for compliance review with the CTCR. These comments are based on information as currently presented, and we do reserve the right to revise our comments if additional information becomes available. If you have any questions, please do not hesitate to reach out to me at this email or the numbers listed below.
